- The official capacity or custody level designation for each facility can change for a number of reasons, e.g. expansion of facility beds, decrease of facility beds due to fire, or changes in contracts with vendors. In all tables the capacity and custody level reflects the status at the end of the reporting period. The design capacity is reported for correctional facilities in Tables 1 through 6.
- State inmates housed in the Hampshire County contract program are included in the county population tables, as are all other state inmates housed in county facilities.
- On May 18, 2000, the Braintree Alternative Center was closed for renovations by the Norfolk County Sheriff's Office. All inmates were transferred to the minimum security Pre-Release Center in Dedham.
- As of September 15, 2000, Longwood Treatment Center, male population, was moved to the Massachusetts Boot Camp and the women were transferred to facilities housing female populations.
- As of September 22, 2000, Massachusetts Boot Camp ceased to hold medium security inmates.
- Due to DOC policy modification, the security level of Boston State Pre-Release was changed from Security Level 2 to Security Level 3/2 during the fourth quarter of 2001.
- P.P.R.E.P was closed effective July 6, 2001.
- Charlotte House was closed effective November 9, 2001.
- Effective November 16, 2001, NCCI-Gardner added 30 beds to Security Level 3, per policy 101.
- May 20, 2002, NECC changed from a Security Level 3 to Level 3/2. The design capacity for Security Level 3 is 62, and for Security Level 2 the design capacity is 88.
- May 20, 2002, Pondville changed from a Security Level 3 to Level 3/2 with a design capacity of 100.
- June 10, 2002, South Middlesex Correctional Center changed to a facility for female offenders.
- June 22, 2002, Old Colony Correctional Center added a Level 3 housing unit. The design capacity for Security Level 5 is 480 and for Security Level 3 the design capacity is 100.
- On June 30, 2002, the following facilities were closed; SECC (Medium), Hodder Cottage @ Framingham, MCI-Lancaster, the Massachusetts Boot Camp, and the Addiction Center @ SECC.
- As of July 1, 2002, the Massachusetts Boot Camp was renamed the Massachusetts Alcohol and Substance Abuse Center (MASAC). Within MASAC is the Longwood Treatment Center Program, relocated on September 15, 2000. This program served individuals incarcerated for operating under the influence of alcohol. Because the inmates were predominantly county sentenced inmates, the inmate count and bed capacity were also included in Tables 3 and 4.
- The Massachusetts Treatment Center (MTC) houses both civil and criminal populations.
- As of April 5, 2002, Norfolk County no longer has any contract beds, all inmates are now held at the Norfolk County House of Correction.
- As of July 1, 2002, two housing units remain open at MCI-Shirley Minimum with a design capacity of 92.
- In August 2002, the David R. Nelson Correctional Addiction Center (DRNCAC) was closed and all inmates were integrated into Bristol Dartmouth House of Correction.
- Within MASAC, The Longwood Treatment Center Program was terminated on July 1, 2003. The last inmate to leave the facility was on September 8, 2003.
- Prior to the 3<sup>rd</sup> Quarter 2003, NCCI-Gardner (Minimum) was inadvertently shown as Security Level 3/2 instead of Security Level 3.

- **Technical Notes 2004 to Present**

- 
- Effective February 5, 2004, Boston State Pre-Release Center had a change in design capacity. The new capacity is 150. One hundred beds are Pre-Release and 50 beds are Minimum.
  - Within MCI-Shirley is a 13 bed unit called the Assisted Daily Living Unit, this unit opened on February 22, 2005. The unit houses inmates who require assistance with activities of daily living (e.g., hygiene, eating, ambulating, etc.), but whose regular medical needs are treated on an outpatient basis.
  - On September 12, 2005 OCCC designated a Special Housing Unit (SHU) to hold Security Level 4 inmates.
  - Houston House program will be known as Women and Children's Program (WCP), effective July 12, 2004.
  - Barnstable County House of Correction design capacity has changed. The new design capacity is 300, effective as of March 13, 2006.
  - The Lemuel Shattuck Correctional (LEM) unit census was added to the first quarter 2006 report.
  - Effective October 19, 2006 the count sheet was changed to reflect the Institution Security Level changes per the CMR 103 DOC 101 Policy.
  - Memorandum of Agreement for 380 beds at Plymouth County Correctional Facility including, 52A's, Non-52A's, DYS, and other county.
  - September 24, 2007 - To reflect recent information that has come to light, Bristol County Dartmouth and Essex County Middleton facilities each include a pre-release women's facility which will be reported separately in future reports.
  - On October 1, 2007 the Western MA Regional Women's Correctional Center opened in Chicopee MA (Hampden County). The design capacity is 228.
  - The design capacity for Shirley Minimum has changed due to the reopening of additional housing units:  
Effective October 15, 2007 - 92 to 165  
Effective February 27, 2008 - 165 to 161, due to the reassessment of space  
Effective June 19, 2008 - 161 to 193  
Effective November 5, 2008 - 193 to 249.  
Effective May 6, 2010 - a new modular unit at Shirley Minimum opened with a rated capacity of 50, changing design/rated capacity from 249 to 299.
  - On June 13, 2008 South Middlesex Correctional Center began housing awaiting trial inmates.
  - Effective February 2, 2009 the DOC added 20 "Community Beds" at Brooke House, contracted with Community Resources for Justice.
  - On January 13, 2009, the DOC began the process of double-bunking inmates in some cells at SBCC, with two inmates instead of the previous one inmate per cell.
  - The data now identifies that the DOC is reporting design/rated capacity. The MGL statute requires that the DOC report on rated capacity. While there is no numerical difference between design capacity and rated capacity, the DOC wanted to make sure the data is accurately and appropriately labeled.
  - Effective April 13, 2009, the security level for the MASAC facility has changed from a Medium to Minimum security. In addition to continuing to house 30-day substance abuse civil commitments under MGL Ch.123 s.35, the facility will house inmates serving criminal sentences.
  - On June 1, 2009 MCI-Cedar Junction @ Walpole became the reception center, designating one unit as medium security. This unit was designed to hold 72 inmates. All other units remain at maximum security.

- On August 13, 2010 the design capacity for the Hampden County women's facility was reviewed for discrepancies. The design capacity has been changed for accuracy from 228 to 109. The operational capacity for this facility is 240.

**Definitions**

Custody Population: Custody population refers to all offenders held in DOC facilities only, and does not include DOC inmates serving time in correctional facilities outside of the DOC (e.g., Massachusetts county Houses of Correction, other states' correctional facilities, and the Federal Bureau of Prisons).

Jurisdiction Population: Jurisdiction population refers to all offenders incarcerated in DOC facilities as well as DOC inmates serving time in correctional facilities outside of the DOC (e.g., Massachusetts county Houses of Correction, other states' correctional facilities, and the Federal Bureau of Prisons).

Design/Rated Capacity: The number of inmates that planners or architects intended for the institution [as defined by the U.S. Department of Justice, Bureau of Justice Statistics (BJS)]. Rated capacity is the number of beds or inmates assigned by a rating official to institutions within the jurisdiction, essentially formally updated from the original design capacity.

In November 2009, new security level designations were established according to **103 DOC 101 Correctional Institutions/Security Levels** policy which states:

**Security Levels:**

- **Pre-Release/Contracted Residential Placement** – The perimeter is marked by non-secure boundaries. Physical barriers to inmate movement and interaction are either non-secure or non-existent. Inmate movements and interactions are controlled by rules and regulations only. Inmates may leave the institution daily for work and/or education in the community. Supervision while on the grounds of the facility is intermittent. While in the community, supervision is occasional, although indirect supervision (e.g. contact with employer) may be more frequent. Inmates must be within eighteen (18) months of parole eligibility or release and not barred by sentencing restrictions for either placement in a pre release facility or participation in work, education or program related activities (PRA) release programs.

- **Minimum** - The perimeter is marked by non-secure boundaries. Physical barriers to movement and interaction are either non-secure or non-existent. Inmates may be housed in single, double or multiple occupancy areas. Inmate movements and interactions are controlled by rules and regulations only. Supervision is intermittent. Inmates may leave the perimeter under supervision. Contact visits and personal clothing are allowed.

- **Medium** - The perimeter and physical barriers to control inmate movement and interaction are present. Inmates may be housed in single, double or multiple occupancy areas. Inmate movement and interaction are generally controlled by rules and regulations, as well as with physical barriers. Inmates are subject to direct supervision by staff. Work and program opportunities are available. Contact visits and personal clothing may be allowed. Inmates assigned to medium custody designation at MCI-Cedar Junction will receive contact visits.

- **Maximum** – The perimeter is designed and staffed to prevent escapes and the introduction of contraband. Inmate movement and interaction are controlled by physical barriers. Inmates are housed in single and double cells. The design of the facility offers an ability to house some offenders separate from others without a limitation of work and/or program opportunities. Inmates are subject to direct supervision by staff. Contact visits may be allowed at Souza Baranowski. Personal clothing is generally not allowed. MCI-Cedar Junction reception beds are considered maximum security and inmates residing in reception beds will receive non-contact visits.

**Figure 2**  
**MA County Correctional Facilities by County, Third Quarter 2010 Population Change**

- Most county correctional institutions have jail beds (to hold prisoners awaiting trial) and house of correction beds (designated for sentenced inmates), with the exception of Suffolk County, which houses these populations in separate facilities. The design/rated capacities are determined within each facility and separate capacities are not designated as “jail” (detainees) or “house of correction” (county sentenced) beds.
- In the third quarter of 2010, the county correctional system operated at 147% of its design/rated capacity, with an average daily population of 12,668 and a capacity designed to hold 8,633 inmates.
- Berkshire County reported the largest percentage decrease, seven percent for the third quarter. Their population decreased by 24 inmates from 357 inmates at the beginning of the quarter to 333 inmates at the end of the quarter.
- Suffolk County’s population increased by 79, or four percent over the quarter.
- Essex County’s population increased by 145, or 10% over the quarter.
- Franklin County had the largest percentage increase, 43% over the quarter.
- The county correctional facilities’ (jails and houses of correction) population increased by 461 inmates, or four percent for the third quarter of 2010, from 12,412 at the beginning of the quarter to 12,873 at the end of the quarter.
